Sweet Dreams

CREMATORY

Here at Sweet Dreams Crematory, we deliver a personalized, concierge level of care. We pride ourselves on our extreme attention to detail, above and beyond service and treating each pet that comes into our care as if they are our own.

Our most frequent question is :
"How do I know I'm getting **MY** pet back"

We understand how hard it is to see your beloved pet taken away from you, but we have a fail safe continuous chain of custody system that not only allows us to track your pet, but you can as well.

Our state of the art software system assigns an individual QR code to your pet before they even come through our doors. Once here, the code is scanned and you have the ability to follow along within your Pet Parent Portal. You are also invited to upload photos and create a personal album of memories, access our grief counselors and support materials or connect with us at any point. You become part of our Sweet Dreams Family.

Additionally, we have added a three step process to triple ensure that nothing is missed. Using this sign off system adds another layer of security and peace of mind. We care beyond measure and know that you have suffered a great loss. Our goal is to be there for you and make this process as easy as possible for you and your family. Most importantly we want to give you peace of mind.

Our facility is open and transparent. If you would like to see, we will arrange a tour.

Lastly, the Sweet Dreams Memorial Gardens are the next step in serving our Sweet Dreams Families, giving them a place to come to reflect and remember. Construction has begun on the gardens, and we are looking for sponsors, donors and volunteers. Come Grow With Us!
